

Code breaker

Colour

Answer

We use many codes on the North Yorkshire Moors Railway to communicate. Can you work out what the secret semaphore message is?

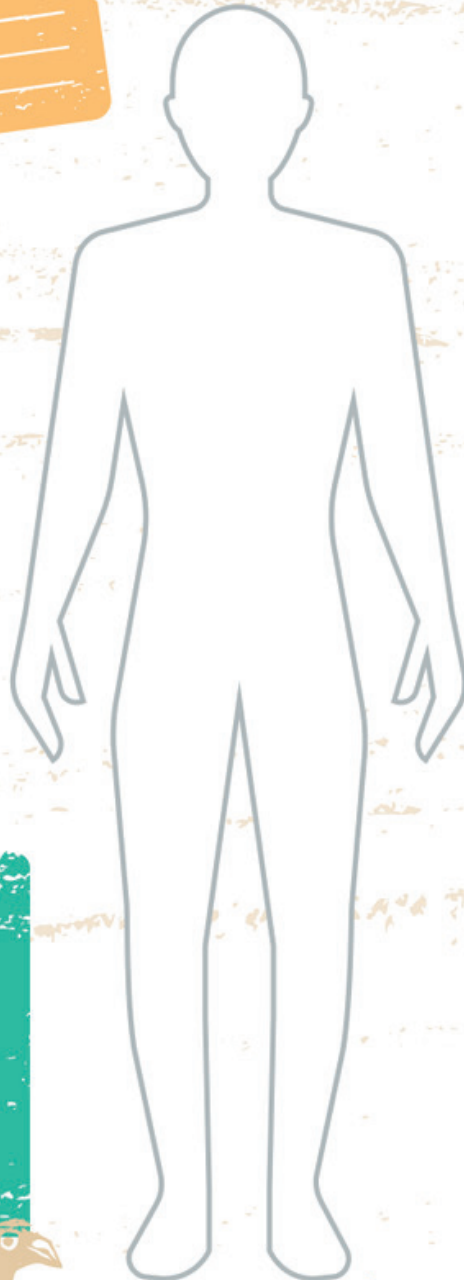

Did you know that you can find snakes along our lineside? One of the snakes is called an adder. Adders have a dark zigzag pattern on their back.

Design a uniform

Uniforms are important across the railway, they tell you what job a person is doing. Can you think of another uniform that helps you recognise what job someone is doing?

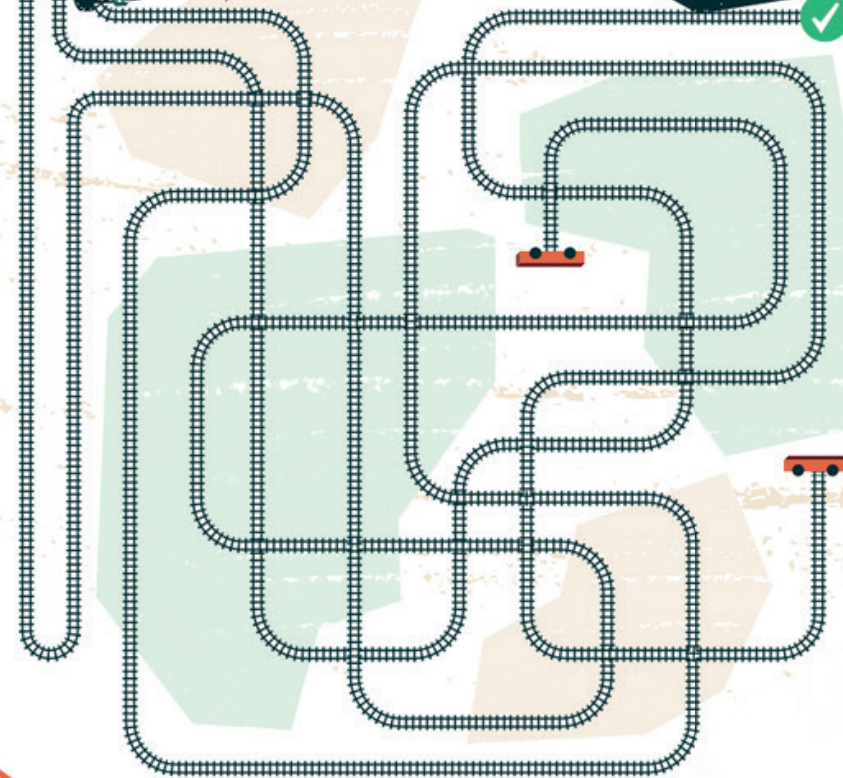

Have a go at designing your own railway uniform.

**NORTH YORKSHIRE
MOORS RAILWAY**

Train track maze

Can you help our train reach the station? Which track should it use?

Spy activity

There are hidden signals on this page, how many can you find?
